佳兴碳排放管理的中长期目标

为积极响应全球气候变化治理行动，践行绿色低碳发展理念，顺应行业可持续发展趋势，同时深度契合广大客户低碳供应链管理要求，主动落实双碳相关的政策导向，我司正式确认自身运营层面的减碳目标并于此公布：

到 2030 年，实现自身运营层面，碳排放绝对值降低 21%（以 2021 年为基准年）；

到 2050 年，实现自身运营的"净零排放"。

未来，我司将继续稳步推进能源结构优化与能效提升工作，全力打造绿色低碳生产运营模式，携手产业链伙伴共建可持续发展供应链生态

Chia Sing's Medium- and Long-Term Goals for Carbon Emissions Management

To actively respond to global climate change mitigation efforts, put the concept of green and low-carbon development into practice, align with industry trends toward sustainable development, and fully meet our customers' requirements for low-carbon supply chain management while proactively implementing policies related to the "Dual Carbon" goals, our company has formally established its carbon reduction targets at the operational level and hereby announces them:

By 2030, achieve a 21% reduction in absolute carbon emissions from our own operations (using 2021 as the base year);

By 2050, we aim to achieve "net-zero emissions" in our own operations.

Going forward, our company will continue to steadily advance the optimization of our energy structure and the improvement of energy efficiency, make every effort to establish a green, low-carbon production and operations model, and work hand in hand with partners across the industrial chain to build a sustainable supply chain ecosystem.
